As a true innovator, MVS video displays achieve brand capabilities never seen before in outdoor media. Imagine movie theater quality video displaying your brand on the busy streets of any city in North America.

We reach distinct niches within specific markets through creative high quality digital video displayed through our mobile video trucks.

BENEFITS:

Location Targeting – Mobility empowers MVS to deliver ads that are precision targeted to specific locations. We bring your message within close proximity to your customer. We can deliver your brand to Sporting Events, Trade Shows, Live Concerts, Nightlife & Entertainment Districts. We can go to areas that don't allow or have availability for permanent billboards.

Technology – MVS trucks are equipped with state-of-the-art sound and digital video technology which far exceeds any other form of print advertising in the mobile marketplace. This allows branding capabilities never before available in outdoor media.

Exposure – Your ad brightly lit on 3 digital screens which are positioned on both sides and rear of the truck at eye level making it easy to view from almost any angle.

TRUCK FEATURES:

- 3 video screens (Side screens are 120" diagonal, rear screen is 105" diagonal)
- 4 dual 6" speakers powered at 110w per channel
- All digital content runs off a laptop computer conveniently located by drivers seat
- GPS real time tracking and history reports
- 3yr, 36,000 mile warranty
- Compatible with Direct TV and Game consoles
- Easy to operate and east to maintain
